which is stranger and more difficult to

not an exaggeration)

QUEEN'S LOUNGE, 4 & 5

Did you know?

Holland America Line spends millions of dollars every year to reduce fuel consumption by upgrading our systems. For example, most of our ships used to run two engines while docked in port to generate the needed electricity. Efficiencies we have achieved now enable us to meet our in port requirements with only one engine.

Tropical Paradise Dinner

Join us tonight in the La Fontaine
