Super Bowl

WELCOME TO  
MELBOURNE, AUSTRALIA

Bringing the cultures, tastes and unique Holland America Line experiences to life, both on board and off.

Today's highlights include:

### Mandatory Australian Immigration Inspection

Please refer to the Australian Immigration Procedures letter delivered to your stateroom concerning the mandatory immigration inspection that will take place this morning. Guests on an organized Shore Excursion must proceed to the Queen's Lounge 30 minutes before your tour departure time. Disembarking guests, please refer to the information and disembarkation time noted on your letter. ALL guests must be seen individually regardless of whether or not you plan to go ashore. The inspection will commence after we have docked, at approximately 8:00am. Guests will be called over the public address system based on the number on the letter delivered to your stateroom. Do not go to the gangway until your number is called. All guests must present themselves shore-side in person in the terminal building. You are required to bring your ship's Guest Identification Card, your Passport, and your completed Australian Immigration Cards. Your passports will be collected back from you by ship's staff immediately following the inspection and or prior to coming back onboard. After completing the inspection you will be free to leave the terminal; you do not have to return back on board.

### Mandatory Zero Count Australian Immigration

Australian Immigration requires the ship to produce a "zero count," therefore no guests will be allowed back on board until everyone has been seen by Immigration ashore, your full adherence and cooperation is appreciated.

### Exhaust Gas Cleaning Systems

Holland America Line has a long tradition of making environmental sustainability and clean technology a corporate priority. As part of these continuous efforts ms Amsterdam's Diesel Engines are equipped with sea water scrubbers, cutting edge technology which uses the natural chemistry of sea water to remove virtually all sulphur oxide and significantly reduce particulate matter emissions. To ensure maximum efficiency, these systems require a weekly cleaning cycle, this is expected to take place from 10:00 pm February 8 until 5:00 am February 9th during which time soot particles may be emitted through the funnels. Out of an abundance in safety precautions during this time, we do not recommend guest's presence outside on Lido-, Sports- and Sky Decks aft.
