Antofogasta, Chile

Chile's second-largest city is a rough-and-ready jumble of one-way streets, modern mall culture and work-wearied urbanites. However, the city is not all high-rise concrete and gridlocked streets. The old-fashioned plaza is a pleasure to kick back in, and evidence of the golden nitrate era can be found in the wooden-fronted Victorian and Georgian buildings of the coastal Barrio Histórico. Ancient spindly muelles (piers) molder picturesquely along the grubby guano-stained port.

The port here handles most of the minerals from the Atacama, especially the copper from Chuquibambilla, and is still a major import-export node for Bolivia, which lost the region to Chile during the War of the Pacific.

A Conversation with Juan Jose Apestegui:

Birds of the Ocean

True seabirds represent only 3% of the bird species found in the world, their life histories are extremely interesting and unexpected, among them the Penguins which are highly specialized and whose antics keep us so entertained.
