Embark Date: **Jan 03, 2024**
Ship: **Zuiderdam**

Voyage: **U410**
From Port: **Fort Lauderdale**
To Port: **Fort Lauderdale**

IMPORTANT NOTIFICATION

Please be advised that a Yellow Fever vaccination is an International health requirement for all persons on this itinerary and a valid, original certificate for Yellow Fever or waiver must be presented during check-in. The vaccine must be given at least 10 days before your trip. If you have a medical contraindication to the vaccine, you must bring an original, signed and dated vaccine exemption certificate issued by a licensed medical doctor. Please note photocopies are not acceptable. Guests without the correct documentation will be denied boarding.

During the cruise, upon arrival at certain ports, this letter will be presented to local officials who will make the final decision on accepting a vaccine waiver. We recommend you contact an approved public health travel advisory at least 8 weeks prior to sailing to discuss travel health precautions for your trip. More information on Yellow Fever can be found at www.cdc.gov/yellowfever. Guests should always take precautions to reduce the risk of mosquito bites such as wearing the appropriate clothing and using mosquito repellent.
