E-Visa Options

- You can get one on your own following the instructions in this guide
 - Price \$80.90
- You can use one of the many Visa Services who will charge anywhere from \$99 to \$400 (in addition to the \$80.90 you pay Brazil)
 - The VISA services don't have a "side door" or any special status with Brazil to make the process faster once you application is submitted. Their value is providing more coaching and help with gathering and preparing your documents – which can be quite intimidating if you are not familiar with scanners, cameras or computers.
 - Your VISA service will also deal with the often buggy VFS Global website – saving you the aggravation or errors and connection problems.
 - Their expedite service only expedite your application with THEM not with Brazil
 - This guide can help you gather your documents for any VISA service you use.

Requirements for Success

- Laptop computer – MAC or Windows
 - Phone or tablet possible – significantly more difficult
- Know how to check photo image size, resize, and crop. You can crop online in real-time when you apply, making it more straightforward than it was previously.
- Scanner, or access to a scanner, with the ability to crop scanned images
 - Scanner apps on phones can be tricky to use – they are not recommended – also phone scanners tend to produce larger images.
- Know how to download or scan your flight or cruise ticket as a PDF or JPG

Documents Required

Tourist

Mandatory Documents Required

- Recent Photograph of the applicant (as per specifications) [\(i\)](#)
- Color copy of the applicant's passport bio page [\(i\)](#)
- eVisa Fee – \$80.90

Important Notes

Consular offices may request additional documents at their discretion.

If a required document doesn't have a designated upload section, please upload it under 'Additional Documents' in the online application

Gather required documents

Gather Required Documents

- Passport-style photograph with white background
 - Photo size is now listed as 3.5 cm by 4.5 cm or 413 pixels by 531 pixels
 - You can crop and resize your photo online in the app
- Color Scan of passport Bio page (photos not accepted)
 - Only primary photo page required
- Travel Document showing dates of arrival and departure from Brazil – black out booking numbers

VFS Global recommends applying at least two months before travel.

Brazil Photo Requirement

BRAZIL PHOTO REQUIREMENT

- Color photo required (JPG or PNG < 2MB)
- Photo **centered** at eye level
- Sharp focus – front facing – eyes open
- Pure White background – no shadows/glare – composition 50 to 60% of image height
- **Neutral expression** – **no teeth**
- **Ears must be visible** - use cotton balls to push ears forward for photo if required
- No hair covering the forehead/ears
- No Glasses
- Plain, dark-colored clothing – no

You can crop photo after upload – original photo size now less important

Walgreens and others can produce square digital images – you will have a chance to crop on the upload page

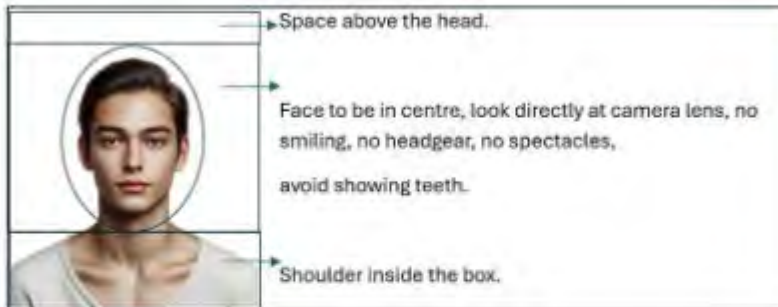

How to take your passport photo

- The easiest way is to go to Walgreens or Fedex and ask if they can take a photo and email you a copy that will be 3.5 x 4.5 cm digital size against a pure white background. If they look confused – you will probably have to find a different store.
- You can use your phone and there are many APPS that can produce an excellent photo, size it and remove the background. Google – “How to take a passport photo on your phone” – hundreds of options.

After you select “Photograph – Edit and Upload” you will see this page where you can upload and crop your photo. I was never able to get their photo tool to work.

Passport

It is worth the time and trouble to get your passport scanned.

Find an office supply store, Fedex or Staples – Ask them to scan your passport as a JPG and crop it to fit, then email the file to you. File size under 2 MB – SCAN MUST BE IN COLOR

Some VISA services request you provide both passport pages – VFS Global doesn't require this and has rejected some applications for this reason. Proceed with caution if you are asked for this by someone other than VFS Global – Requirements often change, but only one page was required as of 2 June 2025

How to complete the online application

How to handle an erratic website

- If items seem to be changing – let it run – give it time.
- This website will often load and display flashing images of pages as the systems move around and eventually finds and displays the correct page
- If you get a 404 error or any other kind of error – try this
 - Hit the back button
 - Hit the refresh button
- If nothing works and you are locked up – close ALL your browsers
 - Open a new browser and start again. You should only lose the current page if this happens
- Try deleting your cookies – open a new browser and start over
- Take a break and try in an hour or two.
- Don't click on links in emails from VFS Global – they probably don't work
 - Except you must click on the link if you need to correct a rejected document

PENDING/QC Hold

- Check your status daily – if your status changes to PENDING, DOCUMENT REQUESTED – You got rejected – check your emails for the reject email with details
- Read carefully what they are asking for – they are usually vague
- Ask on social media for advice for others who may have similar error
- Do not click on the link to fix UNTIL YOU ARE READY –You can also skip the link and log into your dashboard with your E-Mail and OTP
- This upload page will remain available until you press SAVE and CONTINUE

Get ready to Upload

- Change file names so they are easy to recognize
 - JAMESPASSPORT, JAMESTRAVEL, JAMESPHOTO, JAMESBANK
- Know how to find them on your computer
 - This is where using a phone can be very hard
- Preview your existing uploads first – the error may be obvious
 - Blank submission – Blurry – missing name
- Upload your new files – preview for accuracy and clarity
- THEN – Recheck them – have your spouse check them
- THEN PRESS SAVE AND CONTINUE – Your status changes to Pending Document Upload – You don't get an email

You probably won't be able to

If they say your boarding pass is

replace the document with a
new one that includes the
itinerary. The itinerary must be
an integral part of the booking
document.

You can't add the itinerary you
found online to the HAL
booking.

Sometimes the system will not save but ask you to upload additional documents. These may not be specified. If this happens – try reuploading an existing document – like your travel document

Until you press Save – you can go back – or if your browser crashes you can try refreshing the screen and you may get back in – but don't HIT SAVE unless you are DONE WITH EVERYTHING,

A screenshot of a web form titled 'Upload Document'. Below the title is a subtitle 'Please upload the required documents'. There is a large orange button at the bottom labeled 'Save and Continue'. In the top right corner, there is a smaller orange button labeled 'Logout'.

DO NOT HIT SAVE AND CONTINUE UNTIL YOU HAVE UPLOADED EVERYTHING – THERE IS NO GOING BACK AFTERWARDS

After you upload your corrected submission you may see this status “Pending Document Uploaded”

This means the system has accepted a technically correct document but it is in the queue for human review – this may take a week. There is nothing you can do – If you have a urgent travel date – you can try asking the help desk to expedite.
